## The Display shall include -

It doesn't get much bigger and brighter than Las Vegas, this show is packed with glowing colourful stars, large shell bursts and a level of excitement and anticipation to match. There's no gambling on this show though, its guaranteed to entertain your guests.

The big, bright and bold approach to this show will speak very loudly for itself. Indulge yourself and your wedding guests in an atmosphere of fun and excitement as the fireworks included in all of our displays are some of the best you can get. We also ensure that these top quality fireworks hand picked from around the world, land at the wedding venue at the very best possible price, with a service to match.

### **Set off down The Strip :-**

- 1 Huge 75mm Shell in Mortar to start the show, BANG !! and all the guests will have their eyes firmly fixed on the stars.
- 1 A dramatic opening as a collection of one shot professional candles sweep huge glittering comets across the sky in a dramatic gesture to welcome you to the show.
- 24 Shot Display Barrage, from our fantastic "Pro Pyro" range, this cluster of artillery tubes eject unique coloured tails, which each burst into a large bowtie pattern in the air in a variety of mixed bright colours.

### **Table ONE :- (swirling stars and big silver stars)**

- 16 Large bombards, each fired in a bouquet shape (fanned arrangement) propelled with bright silver tails, culminating in bright colourful bursts each tipped with an aerial Catherine Wheel that spins and dances in the sky.
- 60 Shot Display Barrage, from our fantastic "Pro Pyro" range, this battery of artillery tubes eject gleaming silver comets, each then bursting in a loud salute with big silver arms and bright silver twinkling stars

### **Table TWO :- (red carpets and silver lights)**

- 16 Graceful, thick tailed silver comets each tipped with a bright red star, fired in a fanned arrangement, leaving trails of silver star dust.
- 49 Massive Crossette bursts fire from this superb battery of mini mortar tubes. Each one launching a bright red or silver tracer tail capped with a huge four comet burst or alternating red and silver, laying a thick trail of silver glitter.
- 20 Huge 50mm Premium Shells, each set up to a very specific time delay to rise and burst in sequence. Launches and Bursts timed to perfection with bright stars of Red and Silver.

### **Table THREE :- (is all about shades of pastel)**

- 32 Aqua and Orange sequenced comets and mines. Clusters of Orange stars form a low level spread of colour, combined with a high lift of aqua comets travelling to 200ft in the air.
- 50 Large and Loud bursts of alternating pastel pink, coral yellow and dreamy aqua form a rapid succession of large star bursts to excite the senses.
- 14 Loud thumps as a sequence of Premium effect Orange and Aqua shells leave the mortars and burst at nearly 300ft in the air in succession, symbolising the end of the pastel show.

### **The Big Ending:-**

The last sequence builds in size, pace and height to overwhelm the senses....

- 120 Gorgeous Golden Weeping Willows are fired in the air, display a graceful and glittering effect synonymous with fireworks display around the world. This

effect is one of the most well known and well liked effects the world over. The last 20 shots all fire at once to give an exciting end as the show builds to its large finale.....

- 20 Large 50mm Shells, fused in a finale formation across a large set of fanned mortars, displaying a huge cloud of gold and silver sparkle.
- 10 Huge 65mm premium effect shells, fused in a finale arrangement in a fanned arrangement of mortars, all firing simultaneously with all the other shells in the final act to give huge coverage above the Weeping Willows and Gold and Silver 50mm Shells
- 5 Massive 75mm premium effect shells, fused in a finale string and linked across fanned mortars and fired simultaneously with all the other shells. A high layered effect of Gold and Silver stars.
- 2 Enormous 100mm premium effect shells, fused in a fanned arrangement. These huge shells travel to in excess of 400ft and then burst to form an even higher canopy of gorgeous golden willows which slowly and gracefully trail back down. This is a very dramatic and memorable effect which will be the talk of the party.

\*END\*

Please have a chat with one of our friendly fireworks specialists, they can advise you on what you might want to add to the display.

Also remember that for no extra cost we're more than happy to change the "final act" to match your choice of colours (subject to availability). We have a large variety of colours available across our range of fireworks.

As part of our service we will always visit and discuss the safety arrangements at the venue with their management and wedding service team. Sometimes some of our fireworks and effects aren't always suitable as they may be a bit too noisy or even too big. When this happens we always swap the fireworks and effects for those that will work, and this is always done in a way that ensures the show is still just as beautiful and is also to the same value and in some cases higher values, but at no extra cost to our customers.

Its really important to us that you enjoy not just the display, but also the service we provide in the run up to your wedding, so please let us know if you think we can improve any where or if you like what we do please let us know and also tell your friends...
